

/ Twincharge

Two parking spaces, two charging stations

/ GENERAL

Electric bikes are extremely popular, but... they need to be charged. That is exactly the function of the Twincharge bicycle charging point! Thanks to this convenient charging station, the batteries of two electric bicycles can be charged simultaneously. The Twincharge can be installed between existing bicycle racks.

Advantages user

- Charging point for electric bicycles
- Anti-theft protection (locking point frame)
- Additional stability thanks to leaning support

Advantages facility manager

- Budget-friendly
- Easy to install afterward
- Two charging points for each station
- Suitable for most bicycle parking systems
- Flexible set-ups
- Guaranteed corrosion resistant
- Reliable, durable and low maintenance
- Easy and quick to install
- Fast delivery

Material

Steel S235JR

- Sustainable
- Robust
- High durability
- Recyclable

Surface treatment

Hot-dip galvanization according to EN-ISO 1461

- Durable corrosion protection
- Wear- and impact-resistant
- High durability
- Maintenance-free
- Recyclable

Description
